

Summary of Projects in Route 236 Corridor Study Area
Agenda Item #4
December 15, 2004

Completed Projects:

1. Installation of traffic signals at Martin & Stevenson Roads* - Kittery
2. Installation of signals and intersection reconfiguration at Beech Road – Eliot
3. Installation of signals at Depot Road – Eliot
4. Installation of signals at Route 101 – Eliot
5. Minor intersection improvements at Route 91 – South Berwick
6. Reconfiguration/Redesign of Main Street – South Berwick

* Funded by the Town of Kittery

Candidate Projects for the next Transportation Improvement Program (TIP):

- A. Kittery Traffic Circle – Relocate the northbound Route 1 Bypass off-ramp to a new location, with deceleration lane, to the north side of the traffic circle. Eliminate the Old Post Road leg of the circle.
- B. Installation of a flashing beacon at the intersection of Bolt Hill Road in Eliot.
- C. Intersection improvements (without signal) at the intersection of Vine & Academy Streets.
